SUMMARY

I'm a Computer Science student at BINUS University @Malang, specializing as a fullstack developer using React.js for the frontend and Go for the backend. I'm currently seeking internship opportunities to gain hands-on experience and apply my knowledge in real projects. I'm eager to keep learning, adaptable to new environments, and committed to contributing my best whether working independently or in a team.

ORGANIZATION EXPERIENCE

FYP Leader of First Year Program @Binus Malang 2025 - 2026

- Supported the Student Development Centre in executing the First Year Program (Binusian 2029).
- Recruited, supervised, and guided 40 new Freshmen Leaders and Partners, resulting in a 20% increase in freshman retention rate.
- Collaborated across faculties to organize engaging activities and ensure program success.

Freshmen Leader of First Year Program @Binus Malang 2024

- Master of Ceremony (MC) – FYP B2028 Inauguration 2024
- Maintained strong bond to tackle each circumstance in the first year
- Emphasized strong ethical and integrity values in every work
- Established organized and balanced work ethics

EDUCATION

BINUS University Major in Computer Science (GPA 3.24) 2023 - 2027

Certificate

Fundamental of Deep Learning | NVIDIA 2025

- Issued: May 2025
- Expires: No expiration

Selected Project

FinApp (<https://github.com/JonathanVincent19/react-finance>) 2025

- Deskripsi: Mengembangkan aplikasi financial yang didukung AI untuk membantu UMKM menganalisis dan memprediksi tren penjualan.
 - Frontend : Membangun antarmuka pengguna yang intuitif menggunakan React Native (Mobile) untuk menampilkan visualisasi data statistik penjualan, tren bulanan, dan insight finansial.
 - Backend & AI: Menggunakan Go (Golang) untuk membangun microservice API berkinerja tinggi, yang berfungsi sebagai pipeline data untuk memberikan hasil penjualan yang akurat. Data disimpan dan dikelola dalam MySQL.

ADDITIONAL INFORMATION

- **Technical Skills:**
 - Programming Languages: JavaScript, Java, Go, Kotlin, Python, C.
 - Frontend Frameworks: React.js (Web), React Native (Mobile), Laravel (Web).
 - Backend & Databases: Go, MySQL
 - Problem-Solving & Adaptability: Troubleshooting technical and organizational challenges
